

THE ISLAND OF VEN

The 30–40 metre high “Backafallen” areas around the island offer wonderful views and interesting nature experiences. The whole island is a nature reserve or a nature conservation area which means there are special rules and regulations to be followed.

22 THE TYCHO BRAHE MUSEUM

In 1576, King Fredrik II bestowed the island of Ven on Tycho Brahe and Brahe built Uraniborg castle surrounded by a magnificent Renaissance garden. The castle is no longer there, but part of the garden has been reconstructed. The Tycho Brahe Museum is housed in the former All Saints Church. Its exhibitions tell of Tycho Brahe's life and scientific discoveries through archaeological finds, videos and models.

One of the highlights of the museum is the ruins of Tycho Brahe's underground observatory. At this historic site, there is an eight-minute sound and light show depicting Tycho leading a night of observations.

19 HVENS HEMBYGDSGÅRD, NÄMNDEMANSGÅRDEN

The local history museum run by Ven's local folklore society dates back to the late 18th century and is a historic building. The museum has exhibitions showing the brickworking era, seafaring, agriculture and ancient relics. The entire museum presents a historic view of peasant society.

3 SPIRIT OF HVEN BACKAFALLSBYN DISTILLERY

One of the world's smallest, family-owned, pot still distilleries, where everything from mashing to fermenting, distilling, ageing in oak casks and bottling happens under one roof. The distillery offers both guided tours and whisky tastings.

20 ST. IBB'S MEDIEVAL CHURCH

It is impossible to know for certain when the church was built, but the oldest part (the tall building facing the sea) was built in either the late 12th century or the early 13th century. St. Ibb's church also used to have a tower at the eastern end, but it was demolished in 1726. Amongst the contents of the church are Tycho Brahe's pew and an altarpiece painted by Tycho Brahe's court painter Tobias Gemperlin.

OUR MARINAS

We have eight charming marinas, five in Landskrona and three on the island of Ven. They all offer good service and are closely located to gourmet restaurants, places of interests and breathtaking nature experiences.

SHORT FACTS ABOUT VEN

The island is located 4,5 km off the Swedish coast and 8,5 km off the Danish coast. Ven belongs to Landskrona City Council. It rises as a plateau 39 metres above sea level and is 11,7 km in circumference. Approximately 370 people live on the island. A nature reserve covers large parts of the island, camping is therefore only allowed at the campsite. Picking plants and making up fire is also prohibited.

Fun for the kids!

In the mood for swimming? You will find child-friendly beaches at both Kyrkbacken and Norrebro marinas.

Try medieval games in the historical playground at the Tycho Brahe Museum.

Energy to burn? Play football or basketball on the sports ground located across the street from the Tycho Brahe Museum.

Take a break at the playground in Tunaby.

Challenge each other to a game of football, volleyball, croquet, bowls or miniature golf.
